

# Special Issue on Development of Underground Structures

## Call For Papers

A new Special Issue *Development of Underground Structures* (<http://www.journalofcivileng.org/sinfo/229026>) has been launched in *American Journal of Civil Engineering* (<http://www.journalofcivileng.org>). This Special Issue intends to collect research achievements concerning Development of Underground Structures. Novel insights as well as fundamental research on the topics are warmly welcomed. Your submissions along with your ingenious works are expected.

### Lead Guest Editor

Lead Guest Editor: Yang Chen

Affiliation: School of Resources and Civil Engineering, Northeastern University, Shenyang, Liaoning, China

### Papers Submission

Potential authors are humbly requested to submit an electronic copy of their complete manuscript by <http://www.journalofcivileng.org/submission>

### Topics of Interest Include (but not limited to):

- ◆ Planning and development of underground structures
- ◆ Operation and maintenance of underground structures
- ◆ The stress or ground movement during underground structure construction
- ◆ Trenchless technology
- ◆ Geoenvironmental study during underground construction
- ◆ Advanced technology in underground structure monitoring

### Important Dates

Submission Deadline: **Aug. 20, 2020**

Publication Deadline: **Oct. 20, 2020**

### Join as Guest Editor

For scholars who have intention to join the special issue as guest editor, please check out the link below:
