

Special Issue on Remote Sensing and GIS Techniques for Forest Ecosystem Monitoring

Call For Papers

A new Special Issue *Remote Sensing and GIS Techniques for Forest Ecosystem Monitoring* (<http://www.energyenvsci.org/sinfo/602001>) has been launched in *International Journal of Energy and Environmental Science* (<http://www.energyenvsci.org>). This Special Issue intends to collect research achievements concerning Remote Sensing & Forestry. Novel insights as well as fundamental research on the topics are warmly welcomed. Your submissions along with your ingenious works are expected.

Lead Guest Editor

Lead Guest Editor: Avinash Kumar Ranjan

Affiliation: Department of Land Resource Management, Ranchi, Jharkhand, India

Paper Submission

Potential authors are humbly requested to submit an electronic copy of their complete manuscript via <http://www.energyenvsci.org/submission>

Topics of Interest Include (but not limited to):

- ◆ Forest cover change detection
- ◆ Forest biophysical parameters (i.e. LAI, Chlorophyll, Nitrogen, FAPAR, etc.) estimation
- ◆ Biomass and carbon sequestration estimation
- ◆ Forest fragmentation
- ◆ Forest Health assessment
- ◆ Tree species identification

Important Dates

Submission Deadline: **Apr. 1, 2020**

Publication Deadline: **Jun. 1, 2020**

Join as Guest Editor

For scholars who have intention to join the special issue as guest editor, please check out the link below:
