

Special Issue on

Application of Numerical Methods in Geotechnical Engineering

Call For Papers

A new Special Issue *Application of Numerical Methods in Geotechnical Engineering* (<http://www.jccee.org/sinfo/617005>) has been launched in *Journal of Civil, Construction and Environmental Engineering* (<http://www.jccee.org>). This Special Issue intends to collect research achievements concerning Geotechnical Engineering. Novel insights as well as fundamental research on the topics are warmly welcomed. Your submissions along with your ingenious works are expected.

Lead Guest Editor

Lead Guest Editor: Yang Chen

Affiliation: School of Resources and Civil Engineering, Northeastern University, Shenyang, Liaoning, China

Paper Submission

Potential authors are humbly requested to submit an electronic copy of their complete manuscript via <http://www.jccee.org/submission>

Topics of Interest Include (but not limited to):

- ◆ Numerical modelling of the stability of deep excavations
- ◆ Optimization of retaining structures
- ◆ Underground structures
- ◆ Constitutive modeling of soft soils
- ◆ Interaction between soil and structures
- ◆ Pipe-roofing method

Important Dates

Submission Deadline: **Aug. 10, 2020**

Publication Deadline: **Oct. 10, 2020**

Join as Guest Editor

For scholars who have intention to join the special issue as guest editor, please check out the link below:
